AMENDMENT NO. 3

The above numbered solicitation is amended as follows:

ITEMS

1. The Contract Documents are amended to include the questions and answers from the Discussion Board listed herein

QUESTION: Webster & Associates, Inc. is interested in providing laboratory equipment for the NIAID Integrated Research Facility at Ft Detrick. Has the lab equipment been identified? How complete is the design? What is the CM solicitation due date?

ANSWER: The design documents are at 35%. Proposals in response to this solicitation are due on July 21, 2004 at 2:00pm.

QUESTION: To purchase a set of documents, the instructions on page L.2 require the contractor to complete and sign a Notice of Non-Disclosure Form and return it to the Government along with a check for \$801. Where can the form be obtained, who does it get returned to, how long will it take to be approved, and how will we be notified that we will be receiving documents (we would prefer to pick them up rather than have them shipped).

ANSWER: The form can be obtained from the reproduction company, Leet-Melbrook, as listed on Page L.2, Article L.3. The form and the check are to be returned to Leet-Melbrook. Approval will be given the day the form is received and documents will be printed at that time. Printing typically takes 24 hours. Delivery charges are extra.

QUESTION: The RFP states that the Pre-Proposal Conference date and location are TBD and will be issued by Amendment. Has the date/location of the Pre-Proposal Conference been established? If not, what is the timeframe to establish it.

ANSWER: Your question is answered through Amendment #1, on this website or at the FedBizOpps.

QUESTION: Should the Offeror's Minimum Requirements Data as described in Part One of Article L.9 respond to the factors in Section M, Article M.3-Technical Factors, as stated, or respond to the items in Article M.2? It appears that Part Two of Article L.9 already responds to the factors in Section M, Article M.3-Technical Factors.

ANSWER: Section L, Article L.9, Paragraph 2.a.1 should read: "Six copies of Minimum Requirements Data. The Offeror's provided Minimum Requirements Data shall respond to Section M, Article M.2. Provide the following for each project:"

QUESTION: Article L.9.2 states "Submission and Content of Proposals: Proposals shall be submitted in two separate parts. Part One - Cost Proposal, Part Two - Technical Data Proposal, Part Three - Oral Presentation." Yet paragraphs (a), (b), (c), and (d) indicate three volumes need to be submitted separately: Part One - Minimum Requirements, Part Two - Technical Data, Part Three - Price Proposal, with Part Four being the Oral Presentation. Please advise which is correct.

ANSWER: Clarification will to this question will be issued in amendment 2.

QUESTION: In Solicitation No. 292-04-P (CL)-0314, dated June 21, 2004, the period of performance shall be 928 calendar days from Notice to Proceed (NTP). In Amendment No. 1 dated July 1, 2004, the NTP is Aug. 25, 2004 and the Final Completion is June 8, 2007, resulting in 1017 calendar days. Please clarify the period of performance.

ANSWER: "The period of performance as specified in the Solicitation, Section F, Article F.1, runs from Notice to Proceed (NTP) to Substantial Completion, not Final Completion."

2. Section H, Article H.4, Paragraph 5. Add the following:

"(f) Disposal, within the Fort Detrick installation, of toxic and hazardous materials generated by the Contractor's operation is prohibited. Temporary storage of hazardous materials may be permitted during construction as long as the storage is maintained in accordance with **OSHA** and **EM 385-1-1** and stored in a manner that ensures the hazardous materials are accessible by authorized persons only (Consult with HMMO?) The disposal of any project related debris and/or waste within the Installation boundary is expressly prohibited."

3. Section H, Article H4, Paragraph 7. Add the following:

"(f) Contractors are required to comply with the following security measures.

- Identification: Contractors are required to label all vehicles with suitable identification, showing company name, address and current telephone numbers. A system of identification for contractor vehicles and contract personnel will be established by the security officer through the Construction Branch of the Engineering & Construction Division.
- Badges: Each individual involved in the performance of this contract will be required to wear an identification badge issued by the security officer upon beginning of the work.
- Restitution: It is the responsibility of the Prime Contractor that all security identification badges of his employees and subcontractors are returned upon completion of the contract. Final payment will not be made until all badges have been returned."
